**Life.**

Rebuild your water  
by taking it to the next  
level with Enzacta's  
Alfa Energy.

alfa **ENERGY**  
CONCENTRATED  
WATER CATALYST

In today's world, it is difficult to acquire and maintain a healthy balance in fitness and life. These imbalances can cause our health to waiver.

Because of acidic foods, pollution, stress, and unhealthy lifestyles, it is not unusual for our bodies to become too acidic. **Over-acidity** can weaken your immune system, your body may become fatigued, and disease may occur. Reacting to over-acidity, the body will try to restore its optimal pH balance by depleting necessary minerals such as calcium, potassium and magnesium from organs and bones. A key defense against over-acidity is proper hydration, which allows for the body to rid itself of acidic waste that accumulates.

Because our bodies are 70% water, the quality of water we put into our bodies is important. Enzacta is proud to introduce Alfa Energy. When added to drinking water, **Alfa Energy** acts as a catalyst to hydrate you on a cellular level and enhance your body's natural processes. It allows for maximum nutrient absorption, providing you with increased energy and well-being.

Alfa Energy was designed to change the surface tension of regular water. Surface tension affects how water flows through the body to deliver nutrients, decontaminate cells, increase level of oxygen, and hydrate the body. By delivering good nutrients and carrying away harmful acidic waste, Alfa Energy provides your body with the **hydration it needs.**

Rebuilt.
